2. Mandatory Competition Team Equipment

- Field Radio (issued by the competition support staff during presentation of competition mandate)
- Permanent marker set (for map marking)
- GPS tracking device (issued by the competition support staff during presentation of competition mandate)
- The competition topographic map (issued by the competition support staff during presentation of competition mandate)
- Team number including team support personnel (issued by the competition support staff during presentation of competition mandate)

3. Other Important Information

- There is no limit to the weight and amount of personal equipment, this is not regulated
- Teams may carry additional items and equipment, if desired. This will be checked prior to the competition. If the items are not consumables (e.g. food, water), then the same items and equipment must be carried by the competitors throughout the competition to the finish line. The umpires will mark all additional equipment at the start.
- Teams are allowed to use mobile phones only in emergency situations.
- Teams are allowed to use night vision devices.
